I am so glad that I attended the 'Advanced Leadership Development Program' of [Super77](#). There is nothing extraordinary about the program, because it is so simple/ordinary that every individual can connect to own self. But simple things are always overlooked unknowingly.

My best take away is 'Happiness', and I strongly believe in Self- Happiness. So friends simply be happy with small gestures.

Thank you [Amit Pandey](#) for creating such a wonderful module, this will surely inspire people of all age groups, domain and hierarchy. [#happinessatwork](#) [#Super77](#) [#humancharger](#)

We have decided all our 220 Escorts Kubota employees to go through Super77 Leadership Development Program after getting overwhelming feedback from our first batch of 26 HODs including myself who has just loved this program.

Super77 is offering fantastic personality transformation programme which has aligned all our employees with our basic Company Philosophy of "**Employee Happiness**".

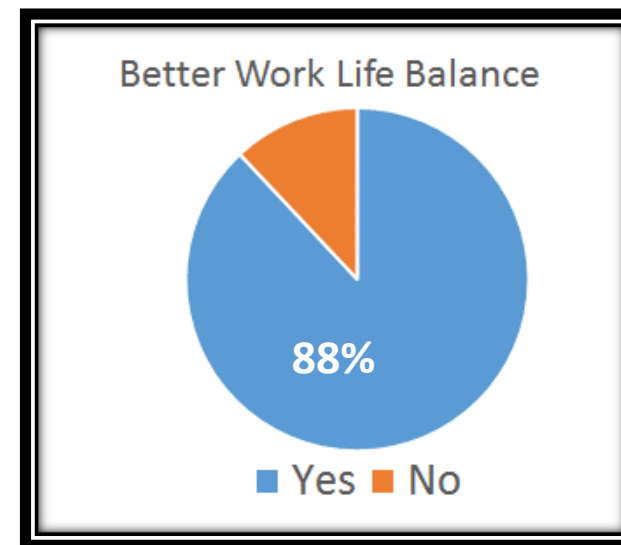

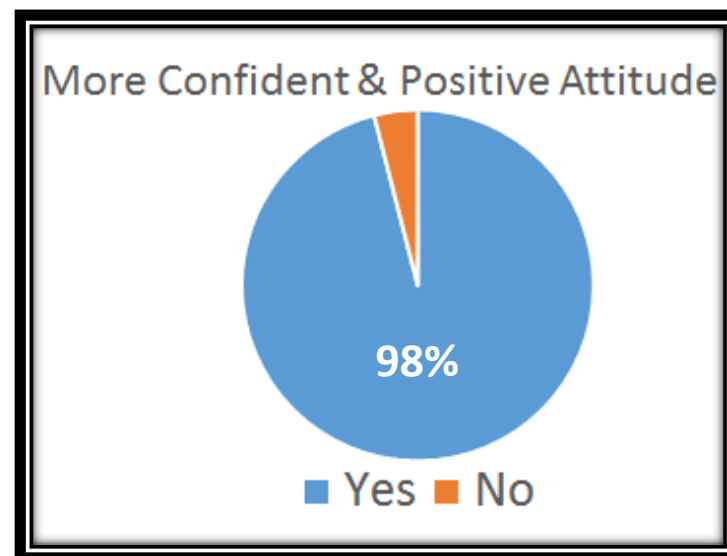

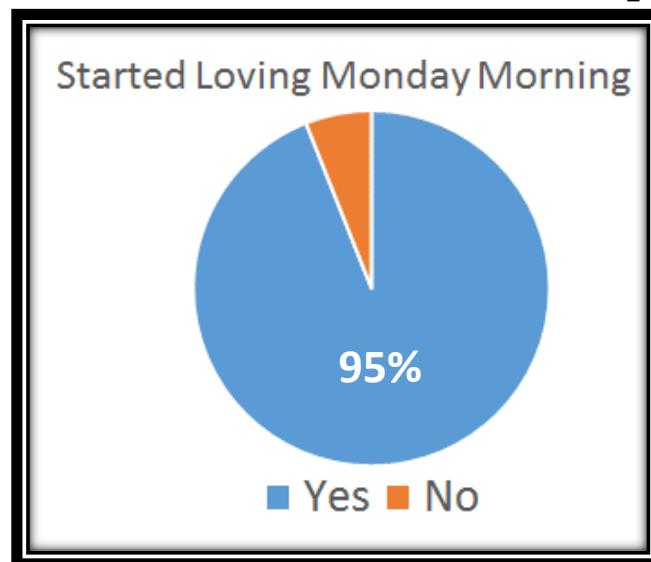

The topics chosen and presented by various experts of Super77 has really given me deep thought and insight of how to keep our-self above various obstacles of life.

The way Super77 experts has defined and expressed basic principals of leadership is really-really wonderful and it touches your own self. Nothing fabricated, No Opinion, 100% practical experience. Big thumbs up to Super77 mentors for creating such a powerful concept.
